Papers are welcome

Acta Pharmacologica Sinica publishes original researches on pharmacology, toxicology, and other biomedical sciences, both experimental and clinical. Manuscripts in English of full-length articles from any part of the world are welcome.

The article should be prepared in accordance with the "Information for authors" in Acta Pharmacologica Sinica 1996 Jan; 17 (1): 89-96 or the "Uniform requirements for manuscripts submitted to biomedical journals" in N Engl J Med 1991 Feb 7; 324 (6): 424-8 and Br Med J 1991 Feb 9; 302 (6772): 338-41.

KEY WORDS (3-10) should be selected from the latest Medical Subject Headings (MeSH) list of Index Medicus when possible. A structural abstract (no more than 250 words) contains 4 parts (AIM, METHODS, RESULTS, and CONCLUSION). Mean values must be accompanied by s (SD, not SEM). Body weights are expressed in actually measured $\bar{x} \pm s$. Do not include more digits in the data than are justified. Use Système Internationale d'Unités (SI units). The statistical significances are indicated by * $P > 0.05$, ^b $P < 0.05$, ^c $P < 0.01$. The number of REFERENCES should not exceed 15.

Mini-reviews (based primarily on the author's own research, internationally important topic, 3-10 key words, no abstract, and total length no longer than 4 printed pages) are also welcome.

Please send manuscripts to Acta Pharmacologica Sinica, 294 Tai-yuan Road, Shanghai 200031, China. Fax; 86-21-6437-0269. Phone; 86-21-6431-1833.
